

TruView™ SIMPLEX

A SIMPLE X-RAY MACHINE

With the TruView™ Simplex, less is more:

- Less training needed.
- Less complexity.
- Less maintenance.
- Less time to make your money back.
- Less learning how to program the machine.
- More getting a live X-ray image in seconds.
- More quality for your business.
- More visibility of your processes.
- More value to your customers.
- More return for your investment.
- More X-ray machine for the money.

TruView™ Simplex: As simple as it gets.

✓ CUSTOMIZATION

At Creative Electron, we manufacture 100% of the systems in San Marcos, CA from software development to design and manufacturing. Conveyors, grippers, robots, and cobots, can be incorporated for material handling. Software tools

can be upgraded to assist with or fully automate the inspection process with image analysis and artificial intelligence. Our team is ready to assist in customizing your system, no matter how unique the application. Visit our website to see some examples and give us a call to discuss your project.

Our TruView™ 12 software provides you with complete control of your TruView™ X-ray inspection system. From simple, visual inspections to fully automated acquisition and analysis, TruView™ 12 has you covered.

OUR GUARANTEE TO YOU.

Our three year warranty. Because we build our own products right here in San Marcos, California, we are able to offer a 3-year warranty to our customers in the USA for all our standard products. We believe in the solutions we provide and are confident that they will operate robustly, consistently, and reliably in our customers' hands for a long time with minimal maintenance. Your peace of mind is our top priority.
